

CURVED BORON CARBIDE BLAST NOZZLE

APPLICATIONS

Boron carbide is ideal for aggressive abrasives such as aluminum oxide and selected mineral aggregates when rough handling can be avoided.

DESCRIPTION

This boron carbide nozzle is great for getting behind bulkheads in ships or other tight spaces.

FEATURES AND BENEFITS

- Boron carbide lined
- 40 degree angle
- Metal jacket
- Metal threads

PART NUMBERS	
BNCBC6M	Curved Boron Carbide Blast Nozzle 10mm orifice Medium Thread 3/4"

SPECIFICATIONS	
Thread Style	3/4 - 14 N.P.S.M
Bore Diameter (metric)	10 mm
Bore Diameter (imperial)	0.374 inches
Length (metric)	117 mm
Length (imperial)	4.6 inches
