

MIST BLASTER™

APPLICATIONS

The Mist Blaster™ is a high performance vapor blaster that can do wet and dry blasting, and have an effective washdown system.

DESCRIPTION

The BlastOne Mist Blaster™ improves dustless blasting performance by providing you with the ability to do dry blasting and vapor mist blasting with the same blast pot, and have an effective wash down cycle eliminating the need to go back and powder wash. This gives you the flexibility of a dry blasting or mist blasting ability as you need it, coupled with the age old reliability you have come to expect from a standard blast machine. The Mist Blaster™ is very versatile, allowing the operators ultimate flexibility in how much water they need for the task at hand.

KEY FEATURES

Mist Blasters™ are designed to minimize airborne dust particles. Mist blasting uses a mixture of compressed air, garnet and water to suppress dust in a method that uses less water than a water ring.

REDUCED AIRBORNE DUST

Mixing a mist of water with ToughBlast Garnet abrasive inside the blasting air stream reduces the airborne dust particles by up to 90%.

LESS CONTAINMENT

Due to lower dust, some jobs you can use no, or little, containment. On some elevated projects this could save you substantial money.

LESS ABRASIVE CONSUMPTION

Using the Mist Blaster™ equipment combined with ToughBlast Garnet, contractors can realize a 60-80% reduction in abrasive consumption compared to typical ToughBlast abrasive with old technology equipment.

FLEXIBILITY

The BlastOne Mist Blaster™ can be used for dry blasting as well as mist blasting. This means that a contractor no longer needs to purchase two different types of equipment to meet all their blasting needs.

BENEFITS

LOW WATER CONSUMPTION

Use as little as 1 quart per minute – upto ½ as much as other brands.

TRUSTED RELIABILITY

The trusted reliability of your existing blast pot and existing technology.

3 SETTINGS AVAILABLE

1. Dry
2. Mist
3. Washdown

The ultimate in choices, you can use the same blast pot for all your projects

WASHDOWN 10X FASTER THAN OTHER BRANDS

A simple turn of the switch and you have 10x the water at the nozzle.

VAPORIZER

Ultimate control, introduces a fine mist of water to the airstream and allow huge volume washdown when in washdown mode.

PART NUMBER

BM S65TVMB 6.5 cuft Mist Blaster

SPECIFICATIONS

Vessel Diameter	25 in
Weight	530 lbs
Width	39 in
Hand Way	6 in x 9 in
Height	60 in
Depth	48 in
Volume	6.5 cuft
Garnet (Capacity)	950 lbs
Steel Grit (Capacity)	1580 lbs

ACCESSORIES PART NUMBERS

BH S3250	Blast Hose, 50ft length - SupaFlex
BH BULL5050FCF	Bull Hose, 50ft length, with 4-claw fittings
BN HYPER7C	Hyper Nozzle, 7/16" Orifice

I CAN TELL YOU THAT THE MIST BLASTER™ IS THE MOST VERSATILE WET ABRASIVE BLASTER ON THE MARKET!
