

MIST BLASTER COMBO SKID

THE PROFESSIONALS CHOICE

CONFIGURATIONS

The combo skid includes a MistBlaster, 50 gal water tank and Air Dryer Package all on one skid for ease of transportation. The unit can be configured with many accessories, including; GX4 CO Monitor, Breathing Air Filter, 2" Bullhose, Blast Hose, Blast helmet and a nozzle. Everything thing you need as a contractor to get started blasting, except the compressor.

DESCRIPTION

The BlastOne Mist Blaster™ raises the bar on dustless blasting capability by providing you with the ability to do dry blasting and vapor mist blasting with the same blast pot, and also has an effective wash down cycle, eliminating the need to go back and power wash. This gives you the flexibility of a dry blasting or mist blasting ability as you need it, coupled with the proven reliability you have come to expect from a standard blast machine.

KEY FEATURES

REDUCED AIRBORNE DUST

Mist Blasters™ are designed to minimize airborne dust particles. Mist blasting uses a mixture of compressed air, abrasive and water to suppress dust in a method that uses less water than a water ring.

LESS CONTAINMENT

Due to lower dust, in some projects your need for containment is reduced or eliminated. On some elevated projects this could save you substantial money.

LESS ABRASIVE CONSUMPTION

Using the BlastOne equipment combined with high performance ToughBlast Garnet, contractors can realize a 30-80% reduction in abrasive consumption compared to other medias such as slag with old technology equipment.

FLEXIBILITY

The BlastOne Mist Blaster™ can be switched from mist to dry blasting at the flip of a lever. This means your investment can work for you day in and day out for all your blasting projects.

BENEFITS

LOW WATER CONSUMPTION

Use as little as 1 quart per minute – upto ½ as much as other brands.

TRUSTED RELIABILITY

The trusted reliability of your existing blast pot and existing technology.

3 SETTINGS AVAILABLE AT THE FLIP OF A LEVER

1. Dry
2. Mist
3. Washdown

Note: Blow down can easily be done as well by closing the metering valve.

WASHDOWN OPENS THE WATER VALVE 100%

A simple turn of the switch and you have 10x the water at the nozzle.

WATER FEED

On-board 50 gallon tank for ease of adding rust inhibitor or use a garden hose.

PART NUMBER	
BMPIPSYSSMB	MistBlaster with Deliquescent Air Dryer and accessories kit
BMPIPSYSSMBN	MistBlaster with Deliquescent Air Dryer, no accessories kit
BMPIPSYSSMBS	MistBlaster with Squat AirDryer and accessories Kit
BMPIPSYSSMBSN	MistBlaster with Squat AirDryer, no accessories kit

ACCESSORIES PART NUMBERS	
APCMB8401	RPB GX4® CO Gas Monitor
APF3001	RPB Radex 2-outlet Breathing Airline Filter
AHB1050FQRPB	RPB 50 Breathing Air Nose
HLNV370550	RPB Nova 3 Air Fed Blast Helmet Respirator with C40 Climate Control
BHS3250FACXNH	Fitted Blast Hose – with Nozzle Holder
BHBULL5050FSP	Fitted Bull Hose - with Spud Fittings
BNULTRA	Ultra-Tuff SiNi Blast Nozzle -
BNHYPER	Hyper SiNi Blast Nozzle
BNSB	SnakeBite Silenced Nozzle <i>Note: Specify Your Choice of Nozzle Size</i>

SPECIFICATIONS	
Weight	2069 lbs (Empty weight)
Width	48 in
Height	72 in
Depth	72 in
BlastPot	6.5 cuft
Metering Valve	Schmidt Tera Valve
Garnet (Capacity)	950 lbs
Water Tank	50 Gal Capacity

I CAN TELL YOU THAT THE MIST BLASTER™ IS THE MOST VERSATILE WET ABRASIVE BLASTER ON THE MARKET!
