

AIRBAG NYLON CONTAINMENT TARPS

DESCRIPTION

These heavy-duty reusable tarps are a great option for 100% containment sheeting projects. They are available in many sizes and designed to be hung from cables.

APPLICATIONS

Popular choice for projects requiring 100% containment, such as lead abatement, abrasive blasting, fireproofing, and coating. Commonly used for water tower and storage tank containment.

FEATURES

- Constructed of 6 oz. 420 denier nylon and coated with silicone to make the impermeable
- Web reinforced with grommets at 2 foot intervals along the perimeter and seams
- Note: the second dimension on the tarp size is always the length of the interior seams
- Normally white in color but varies according to availability
- Normally stocked in FR
 - Available in non-FR by special order
- Selected sizes shown. Any size available by special order
