

# CONTAINMENT SHEETING

## NON-REINFORCED PLASTIC/POLY SHEETING

- ▶ Poly sheeting is protective product for painters and other trades
- ▶ Variations available in size, thickness, flammability, and colors

SIZE	4 MIL FR	4 MIL NON-FR	6 MIL FR	6 MIL NON-FR
10'x100'	PCPS10X1004FR			
20'x100'	PCPS20X1004FR	PCPS20X1004	PCPS20X1006FR	PCPS20X1006
40'x100'		PCPS40X1004		PCPS40X1006

## REINFORCED PLASTIC/POLY SHEETING

- ▶ Contractor favorite, typically used for short-term containment, trench lining, and for building enclosures
- ▶ Made-in-USA string reinforced (aka scrim reinforced) with the filaments in a diamond pattern.
- ▶ Variations available in size, thickness, and flammability

SIZE	6 MIL FR	6 MIL NON-FR
12'x100'	PCSP612100FR-US	PCSP612100-US
16'x100'	PCSP616100FR-US	PCSP616100-US
20'x100'	PCSP620100FR-US	PCSP620100-US
32'x100'	PCSP632100FR-US	PCSP632100-US
40'x100'	PCSP640100FR-US	PCSP640100-US

## HEAT SHRINK SHEETING

- ▶ Shrinks to conform to scaffolding or other geometries, keeping out the elements while keeping dust and debris inside
- ▶ Variations available in size, thickness, and flammability

SIZE	9 MIL FR	12 MIL FR
20'x100'	PCSW9ML20100FR	PCSW12ML20100FR
22'x100'		PCSW12ML22100FR
26'x62'	PCSW9ML2662FR	PCSW12ML2662FR
30'x100'	PCSW9ML30100FR	PCSW12ML30100FR
32'x70'	PCSW9ML3270FR	PCSW12ML3270FR

## REINFORCED SCAFFOLD SHEETING

- ▶ Premium reinforced scaffold sheeting is used for projects requiring full containment
- ▶ Eyelet reinforcing bands have conveniently spaced holes, used to tie the sheeting to the scaffolding
- ▶ Resistant to tears, water, and mildew
- ▶ Variations available in size, thickness, and flammability

SIZE	12 MIL FR	8 MIL FR
7'4"x136'	PCSL1274136-FR	
8'6"x100'	PCSL1286100-FR	
13'x100'	PCSL1213100-FR	
20'x100'	PCSL1220100-FR	PCSL820100-FR

## NYLON AIRBAG TARPS

- ▶ For jobs requiring 100% containment, where a reusable tarp system is desired
- ▶ Standard construction includes sewn grommets positioned at 2 foot intervals along the web-reinforced seams, hems, and overlap flaps
- ▶ The second dimension on the tarp size is always the length of the interior seams

SIZE	NYLON FR
20'x40'	PCCoatedNylon20X40FR
25'x50'	PCCoatedNylon25x50FR
30'x50'	PCCoatedNylon30X50FR
35'x50'	PCCoatedNylon35X50FR
40'x50'	PCCoatedNylon40X50FR
100'x20'	PCCoatedNylon100X20FR
100'x30'	PCCoatedNylon100X30FR
100'x40'	PCCoatedNylon100X40FR

# CONTAINMENT SHEETING ACCESSORIES

## ZIPPER DOORS

SKU: PCTSPDOOR

- ▶ Ideal for accessing shrink poly sheeting, abatement enclosures, and scaffold sheeting containment
- ▶ Shown here are u-shape zipper door types in 12 mil clear, fire-resistant plastic
- ▶ Available in sizes 36"x48" and 36"x72" - **Contact BlastOne for all available options**

## CONTAINMENT STRAPPING

SKU: PCSTR

- ▶ Sold in boxes of 2 spools; 1500' length and 3/4" wide
- ▶ Available in standard and FR variations
- ▶ **Contact BlastOne for more length and width options**

## POLY TAPE

SKU: PCPT

- ▶ Shrink film containment – Scaffold weather enclosures, construction plastic sheeting, vapor barriers and general masking applications
- ▶ Available in standard and FR variations
- ▶ **Contact BlastOne for more length and width options**

## BUNGEEES

SKU: PCPT100

- ▶ Used to safely and securely fasten scaffold sheeting, reinforced poly and tarps to scaffolding or other structural framework
- ▶ Save time, labor & energy during installation of scaffolding enclosures

## SPRAY ADHESIVE

SKU: PCSPRAY

- ▶ High performance, wide web spray adhesive glue
- ▶ Used to bond, seam, or seal shrink wrap, poly sheeting, reinforced poly and scaffold sheeting enclosures
- ▶ For permanent or temporary bonds
- ▶ Heavy duty, aggressive bonding, water resistant, stain resistant, high solids, HAPS free, no chlorinated solvents

## WIND CLIPS

SKU: PCWC100

- ▶ Used to securely fasten poly sheeting and poly tarp to scaffolding systems
- ▶ Reusable wind clips made from durable molded polyethylene
- ▶ Recommended every 3 feet for safe & secure installation

## SCREW LOCK CONNECTORS

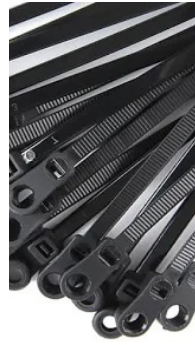

SKU: PCSC

- ▶ Used to securely fasten two joining panels of sheeting together, creating a tight seal between joining layers of sheeting
- ▶ Reduces wind from entering and blowing out the enclosure
- ▶ Made from durable dye-molded polyethylene

## CABLE TIES

SKU: PCCT

- ▶ Used for fastening tarps and debris nettings to guardrail cables, scaffolding, fencing and other structures frames
- ▶ Made from heavy duty Nylon 66
- ▶ Self-locking zip tie
- ▶ 50 lbs and 120 lbs tensile ratings

## SHRINK GUN

SKU: PCHSG3000

- ▶ Suitable for heavy use, including pallet wrapping and industrial containment
- ▶ Fan-shaped nozzle provides maximum surface coverage
- ▶ Stainless steel heat diffuser stays cool to the touch even after long use
- ▶ Innovative Securipack safety system prevents overheating and controls gas flow

## SHRINK TORCH

SKU: PCHTKIT

- ▶ Ideal for shrinking large areas of sheeting

## SNAP HOOK CLIPS/CARABINERS

SKU: BAHCLIP

- ▶ Used as rigging hardware to install containment tarps, screens, debris netting and other enclosures
- ▶ Zinc-plated steel snap hook clips
- ▶ Spring release allows for easy open & close
- ▶ Rust resistant & corrosion resistant
- ▶ Size: 5/16", 3/8", 7/16" - **Wide mouth options also available**

## ROPE

SKU: NLMR

- ▶ Used for marine tie downs, hand lines, anchor lines, hoisting, mooring lines, pulling lines, dock lines
- ▶ Easy to handle & easy to splice
- ▶ Available in poly combo, yellow polypropylene, manila, twisted nylon and double braid nylon ropes
